

## Monitor your Progress Year 6 Spring Term

### Environmental Issues:

The world has many different environments. You will learn to recognise that these are precious and that they are under threat. You will explore both global locations under threat and also your closest national park.

How much do you know?

			
I know what an environment is.			
I understand how physical and human geography effects these special environments.			
I know how to make a field sketch of an environment.			
I can locate and explain the conflicts affecting the South Downs National Park.			
I can locate all the National Parks in the UK.			
I know how to make a conflict matrix for resolving issues related to National Parks.			
I know what the following words mean in relation to National Parks: Exploit Protect Conserve Manage			
I can explain in detail how Dartmoor works as a National Park, including managing all the tourism and conflicts.			
I know where Antarctica is and can explain the conservation and conflict taking place there.			
I understand the term Eco Tourism.			
I can give an example of Eco Tourism.			

This is a marvellous topic with lots of opportunity to be creative and fun. Enjoy but don't forget to learn.
