

Class notes

■ FELTONFLEET School is going well and truly global with the introduction of Mandarin, Russian, and Arabic language courses.

The Cobham school is also offering Italian and German lessons to pupils in Years 6, 7 and 8 using the latest cutting edge technology.

Linking up native speaking teachers with pupils using the internet, youngsters are given their lessons in real time.

They are then able to see, speak to and interact with their teacher and receive immediate feedback and corrections.
